## Nintendo 3ds Soundfont

SoundCloud user XPhoenixV has uploaded a SoundFont file called "FATAL" for use with Nintendo 64 Emulator 3.2.0. This soundfont is awesome, and is made for Nintendo 64 Emulator, although it works with most emulators. And by the way, there's nothing wrong with the SoundFont file as you've probably read. If you wish to convert the soundfont into a WAV file or OGG format, you can use a soundfont converter (googled it for you). - First, download the soundfont. - Convert the soundfont into WAV or OGG using the SoundFont Converter. Notes: - I use the SoundFont Converter, because it's free and one-click converting. - Converting soundfonts to WAV can take quite a long time if you have a slow internet connection. I've had to wait more than 10 minutes. - Converting soundfonts to OGG usually does work faster, but I haven't tried that myself. (I don't have an internet connection that fast). After converting the file into the desired format, copy the file to your N64 emulator's folder (if you have one), and enjoy it! Pokemon Sapphire Soundfont. Enigma TV Graphics Soundfont.
